About

Patricia Karen Gagic has dedicated her career to mastering the Matisse palette and techniques from the great French Master "Dragan Dragic". In 1999, Patricia began her solo mentorship studies with Dragic in Savoillan, France. It was her great honor to exhibit with him in Sault, France in 2008 with curation by Jean Pierre Thelcide. Her work is dedicated to the Karmic Art Experience a program which will serve to inspire and empower those who have yet to find their brilliance, hidden behind fear by integrating hope. Through the transformative power of art and mindfulness, in collaboration with the mystery of wisdom and karma, perceptions will shift unlocking potential to create the best version of being and spirit and an intentionally extraordinary life. Patricia Karen Gagic DStG, ICA is an International Contemporary Artist, Award-Winning Author, Motivational Speaker, Visionary, Entrepreneur & Humanitarian. Her work is described as Transcendental Realism. Gagic has had a diverse and successful career not only as an artist, but also in banking and entrepreneurship. She was

the founder of Kyralex and MLX Property Management, and is currently President of Patricia Karen Gagic Art Enterprise Inc., and is CFO of the Hamilton Vein Clinic. Patricia is passionate about giving back and is the Chief Visionary Officer/Co-Founder of Help Heal Humanity a not-for-profit organization dedicated to supporting and building schools and libraries in Haiti, Cambodia, and Nepal. She was a participant in the Colors of Freedom Art portfolio which included works by 20 international artists raising funds to support Round Square schools, Free the Children, Classroom Connections, and those effected by 911. As a presenter on world stages, Gagic uses her platform to encourage and promote servitude and art.

THE ARTIST

Patricia is an accomplished International Contemporary Artist and Award-Winning Author. Represented by Artworld Fine Art in Toronto, 13th Street Gallery in St. Catharines and FACEC in Cannes, France. Patricia has exhibited with BB International Fine Arts in Switzerland, accepted to Art Fairs in Geneva, Berlin, France, Austria, South Korea, and Zurich. She exhibited at the Coda Gallery in New York and the NY Art Fair. In 1999, Patricia began her studies with Master Artist Dragan Dragic in Savoillan, France culminating in a joint exhibit (2008) in Sault, France.

MY WORKS

"Art is the essence of life. In every action we are creating with or without the canvas or chosen tools. Each moment of life is art." After spending many years questioning, analyzing, and examining my process I am continually amazed at the depth of discovery. The balance between being in the moment and finding the truth is the secret sauce to

reveal the wisdom within. Whether I am painting or photographing I believe our intentions reveal the creative spark, a direct current to the conception of creation. I am grateful to shine the light on and honor my mentor Dragan Dragic. When he took me under his wing in 1999, I began to understand the contemplative nature of art. The plethora of ideas churn as I reach deep into the texture and palette. Art is immortal and when the floodgates of spirituality and neuroplasticity are opened the visions can be delicate and rewarding. The truth about abstract art is in the magic and mystery of form and the elegance of its nature. Time and space require patience when you metabolize your concepts and idea into the work. There is a shadow contained inside each stroke. One rarely sees it, but in the forever changing grid we operate within, the shadow reveals much more than what the eye perceives. This is the destiny of art, revealing something beyond sound, beyond thinking or believing. It is a revelation into the beauty of our forever changing world as we are the witness. Art creates a mirror for others to share a glimpse into tragedy and redemption no matter what form it takes. Perception plays another key role in the underlying value of abstract or contemporary art. If the viewer has an expectation and wishes to judge based on their own values, checks and balances, it might not allow the essence of the work to be understood. Thus, the delicate task of the artist is to engage the spirit of the viewer and offer a collaboration. My hope is to share in the voyage with each canvas as it is my journey alone. For those who walk along side with me, I can only wish they will see the beauty within themselves."

The Divine Right of Art

Art has always inspired, but the world of art can be intimidating for someone who has not spent any time in it. If you have not had the privilege of being taught how to look at art, there must be another way for you to learn and execute appreciation. The profound effect of art in all its forms shows it is more than just creating a product. The beauty that comes with art is how it has limitless potential to help create a better world and better humanity.

"When we can take the calmness in the exercise, it also creates the calmness in the mind. Art is a critical part of how we manifest ourselves into a better way of living," says Abstract and Contemporary Art Master and photographer, Patricia Gagic. Art has been used throughout history to create a higher sense of consciousness. Bringing confidence, hope, and peace to those who take the time to truly immerse themselves in the experience of art. Creation is a part of each of us, it need only have someone awaken the natural ability that lies within.

Gagic has traveled all over the world. Not just to learn more about herself and her art, but to learn how to use her art to change the world. For the last 20 years, Gagic has had the honor and privilege of being the only student and protégé of renowned French Master artist, Dragan Dragic. That began Gagic's Karmic Revolution. *"By creating the Karmic Art Experience, I am hoping to take these techniques and the wisdom that I have learned and share that. Giving people who may have never spent time painting a way to see in 1-2 hours how much potential they have to create and paint."*

Gagic is changing the world through her critical spiritual journey. Through many of her global journeys, she has built schools and libraries in Cambodia, donated many of her art pieces to charities, auctions, and non-profits to see them use those proceeds to help others. She chooses to use the talent and spiritual nature of her work to bring hope to the hurting and marginalized. She shows us there is more to giving back and creating change than simply wishing for it. Everyone will feel pain, loss and even fear in their lives. It is how we use those feelings that matters. We can choose pain, or we can choose to push beyond, to live an impactful life, one that creates joy. Not just for the ego, but for a truly fulfilled existence that creates contentment.

June 2017. Patricia Karen Gagic receiving the ATIM Top 60 Masters Award during ArtTour International Magazine's Ceremony at the Museum of Art and Design in New York.

Art has the power to create an emotional impact with every stroke of the brush. Gagic has a deeper and intimate knowledge of the importance art serves to our everyday. *"This is the destiny of art, revealing something beyond sound, beyond thinking. It is a revelation into the beauty of the ever-changing world we are witnessing. Art creates a mirror for others to find beauty within no matter what form it takes."*

SEXY WITH NO BOUNDARIES

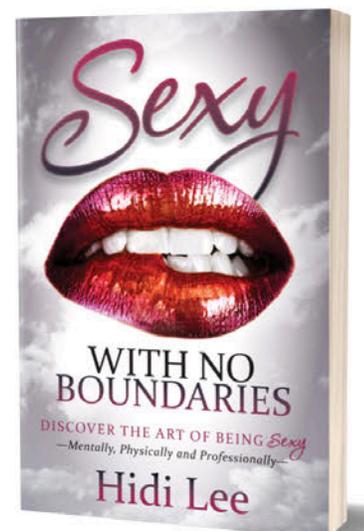

by: Hidi Lee – June 1, 2014

From Hong Kong, to Italy, to Canada, to United States, Hidi Lee believes that no matter where she works, she faces the same kind of person: the one that is confused and insecure of her own body.

Having been a lingerie designer for 24 years, Lee believes this lack of confidence is due to the false body perception that is often implemented by the mass media. Lee argues against what she calls the "old school sexy" which she sees as prevalence of a curvy body or dressing provocatively. In Sexy with no Boundaries: Discover the Art of being Sexy-Mentally, Physically and Professionally, she promotes what she labels "Sexy in the New Millennium". Being sexy isn't just about skin-deep beauty. It's about aligning the physical beauty with inner qualities such as mind-set, happiness, self-love, sense of humor, and confidence to complete what is the true meaning of "sexy," from the inside and out. Let her show you how.

Lee and her contributors join forces to inspire individuals to realize that sexy is size-blind, age-blind, beauty-blind, gender-blind, religious-blind. We are all sexy and beautiful in our own way. Her ultimate goal is to turn the once confused and insecure individual to receive massive success filled with confidence and sexiness.
